Zesrab Tanjeel Khan

About me

I am a computer science student with a commitment to delivering quality work. Possessing strong leadership skills and a knack for critical thinking, I am dedicated to continuous improvement. My current CGPA of 3.95 reflects my academic dedication. Eager to learn and contribute, I am seeking an opportunity that allows me to apply these qualities in a dynamic work environment while embracing new challenges.

Projects

Daak – Crime Reporting & Emergency Response App

Designed and developed a mobile safety app for users in Bangladesh to report crimes, send distress signals, access emergency contacts, view crime heatmaps, and get AI chatbot assistance. Focused on user-friendly interface, real-time data, and secure anonymous reporting to improve public safety.
